Doctor Phil (MD)

Now

Hi, I am your virtual care consultant. How can I help you today?

Doctor Phil (MD) at 6:58:18 PM

Hello, I'm Nathan. What university did you attend?

You at 6:58:42 PM

Hello, Nathan. I studied medicine at the Alan Turing Virtual Institute of Medicine

Doctor Phil (MD) at 6:58:45 PM

I feel really sick. I would like a diagnosis.

You at 6:59:16 PM

I'll need to know your symptoms in order to diagnose you. You can ask for a new diagnosis at any time.

Doctor Phil (MD) at 6:59:19 PM

I seem to have a light headache.

You at 6:59:40 PM

Make sure to drink water as a common cause for headaches is dehydration. Ibuprofen and Tylenol can be taken to relieve some of the pain.

Doctor Phil (MD) at 6:59:43 PM

What can I do for general pain?

You at 6:59:58 PM

I'm sorry to hear that! Ibuprofen and Tylenol can relieve general body aches and pain. Make sure to get some pre-emptive rest as this could be an early symptom of another illness.

Doctor Phil (MD) at 7:00:01 PM

Jordan is having some problems. They have a chronic cough.

You at 7:00:26 PM

Please tell Jordan: "Tea and honey as well as cough drops can help relive some of the coughing. An air humidifier or a steamy shower can also help. This should be obvious but avoid smoking anything. If the cough gets worse or persists visit your doctor."

Doctor Phil (MD) at 7:00:29 PM

My chest hurts and I have a bad fever.

You at 7:00:55 PM

Hold on, we'll get you feeling better in no time! You have covid! If you would like to know how to treat covid, just ask.

Doctor Phil (MD) at 7:00:58 PM

Doctor Phil (MD) at 7:00:58 PM

Honey, cold soft foods like icecream, and warm beverages can help relive coughing. If you have shortness of breath take long slow breaths. Avoid irritants like smoke, alcohol, and acidic foods. As always drink plenty of fluids and get lots of rest. If you want to know what medicine can be used to treat covid, just ask.

Doctor Phil (MD) at 7:01:24 PM

Advil, Tylenol, and Ibuprofen can be used to relive aches and headaches caused by the fever. If you're a high risk individual visit your doctor and ask about some of the antiviral medication for covid.

Doctor Phil (MD) at 7:01:51 PM

You have a case of the common cold! If you would like to know how to treat the common cold, just ask.

Doctor Phil (MD) at 7:02:22 PM

Make sure to drink lots of liquids to avoid dehydration. Avoid coffee, alcohol, and nicotine. If your fever persists for more than 3 days, visit a doctor. If you have a sore throat, tea and honey or gargling salt water can help relive it. Rest, exerting yourself can make the cold much worse than it already is. If you want to know what medicine can be used to treat the common cold, just ask.

Doctor Phil (MD) at 7:02:44 PM

Any cold medicine you have should work. Tylenol or Advil can be used to relieve aches if you have any. Avoid antibiotics; they don't work on a virus like the common cold.

Doctor Phil (MD) at 7:03:02 PM

I'll work my hardest to help you feel better. You have a migraine. If you would like to know how to treat a migraine, just ask.

Doctor Phil (MD) at 7:03:29 PM

What should I do if I have covid?

You at 7:01:21 PM

What medication should I take if I have covid?

You at 7:01:47 PM

My nose is congested and my body aches.

You at 7:02:19 PM

What do I do if I have the common cold?

You at 7:02:41 PM

What medicine can I use for the common cold.

You at 7:02:59 PM

I have severe head pain and I regularly vomit.

You at 7:03:26 PM

What do I do if I have a migraine?

Doctor Phil (MD) at 7:03:52 PM

What do I do if I have a migraine?

You at 7:03:52 PM

A migraine can increase sensitivity to bright lights and loud noises. Relax in a dark, quiet room and sleep if you can. Applying a hot or cold compress to the head or neck can often help relieve the pain. If you want to know what medicine can be used to treat a migraine, just ask.

Doctor Phil (MD) at 7:03:55 PM

What medication can I take for a migraine?

You at 7:04:12 PM

If you have a migraine try taking a Tylenol or Advil. It should relieve your headache. If your migraine persists for extended periods of time and after taking medicine, see a doctor.

Doctor Phil (MD) at 7:04:15 PM

My eye is itchy, pink, and crusty.

You at 7:04:44 PM

You have a conjunctivitis, also known as pink eye. If you would like to know how to treat pink eye, just ask.

Doctor Phil (MD) at 7:04:47 PM

What can I do if I have pink eye?

You at 7:05:19 PM

Pink eye can be caused by allergies, a bacterial infection, or a viral infection. If your pink eye is caused by an allergy, removing the allergen from your environment can relieve symptoms. In the case of bacterial and viral pink eye, it's advised you see your doctor as a prescription can aid the recovery process greatly. In all cases a cold cloth can be used to clean your eye of any discharge. If you're infected in both eyes use a separate cloth for each eye. If you want to know what medicine can be used to treat the pink eye, just ask.

Doctor Phil (MD) at 7:05:22 PM

What medication is there to treat conjunctivitis?

You at 7:05:38 PM

Prescribed antibiotics are the most effective medicines for bacterial and viral pink eye. If your pink eye is caused by allergies, allergy medication should suffice.

Doctor Phil (MD) at 7:05:41 PM

My stomach hurts and I feel nauseous.

You at 7:06:21 PM

You have the stomach flu! If you would like to know how to treat a stomach flu, just ask.

Doctor Phil (MD) at 7:06:24 PM

What can I do if I have the stomach flu?

You at 7:06:36 PM

Try to avoid solid foods. If you're hungry try to eat easier to digest foods like bananas, toast, soup, etc. Avoid coffee, nicotine, fatty foods, and alcohol. Make sure to get plenty of rest as well. If you want to know what medicine can be used to treat a stomach flu, just ask.

Doctor Phil (MD) at 7:06:39 PM

What medicine is there for a stomach flu?

You at 7:06:54 PM

If you have a stomach flue try taking over the counter pain relievers. They should relieve some stomach pain.

Doctor Phil (MD) at 7:06:57 PM

Gabriel is sick. They will want a diagnosis.

You at 7:07:42 PM

Please tell Gabriel: "I'll need to know your symptoms in order to diagnose you. You can ask for a new diagnosis at any time."

Doctor Phil (MD) at 7:07:45 PM

They have a really sore throat and a swollen neck.

You at 7:08:04 PM

Tell them: "You have strep throat. If you would like to know how to treat strep throat, just ask."

Doctor Phil (MD) at 7:08:07 PM

What should I do if I have strep throat?

You at 7:08:39 PM

Gargling with salt water, a humidifier, honey, and cold soft foods such as icecream or yogurt can help relive throat pain. Stay away from anything that could irritate your throat such as smoke and acidic foods. If you want to know what medicine can be used to treat strep throat, just ask.

Doctor Phil (MD) at 7:08:42 PM

What medication should I use for strep throat?

You at 7:09:00 PM

The standard pain relievers such as Advil, Tylenol, and Ibuprofen can help relive much of the pain strep throat causes. Strep throat can also be cured much quicker with the use of perscribed antibiotics such as penicillin or amoxicillin. Only consider antibiotics if your case of strep throat lasts for longer than usual or becomes worse.

Doctor Phil (MD) at 7:09:27 PM

Use lip balm to prevent your lips from drying out. A cold compress can be used to reduce redness and remove any crusting. A warm compress can be used to relive pain. If you want to know what medicine can be used to treat cold sores, just ask.

Doctor Phil (MD) at 7:10:30 PM

You may have a light fever if this is your first time having a cold sore. In that case common pain relievers like Tylenol, Advil, and Ibuprofen can help relieve any pain caused by the fever. Creams with lidocaine or benzocaine can also offer some pain relief when applied to the sore.

Doctor Phil (MD) at 7:10:42 PM

Hold on, we'll get you feeling better in no time! You have a the chickenpox. If you would like to know how to treat chickenpox, just ask.

Doctor Phil (MD) at 7:11:32 PM

A cool bath with a small amount of baking soda can relive itchiness. Putting calamine lotion on the rash can also relive itchiness. If you want to know what medicine can be used to treat the chickenpox, just ask.

Doctor Phil (MD) at 7:11:47 PM

Benadryl and other Antihistamines can be used to relive itching. Medicines like Tylenol and Advil can help relive fever, aches, and headaches.

Doctor Phil (MD) at 7:12:03 PM

If you ever need help again I'm always here. Get well soon!

Doctor Phil (MD) at 7:12:20 PM

How can I treat cold sores?

You at 7:10:27 PM

What medicine can be used on cold sores?

You at 7:10:39 PM

I have an itchy red rash and a fever.

You at 7:11:28 PM

What should I be doing to treat the chickenpox?

You at 7:11:44 PM

What medicine can I use for the chickenpox?

You at 7:12:00 PM

Thanks doctor! Goodbye!
